- the classic open slide

Plenty of play value

- Childrens first choice.
- The slide support children in developing their ability to judge distances and speed.
- Challenges the motor skills.

Quality

- Made of environmentally friendly polyethylene.
- Polyethylene don't splinter.
- Doesn't get hot in the sun.
- All materials are maintenance free.
- Only limited space required.

The gliding surface is made of Polyethylene which doesn't get hot in the sun.

Can be mounted on all types of surfaces.

Technical data

Dimensions

Type 1981

In cm: L 256 - W 52 - H 167

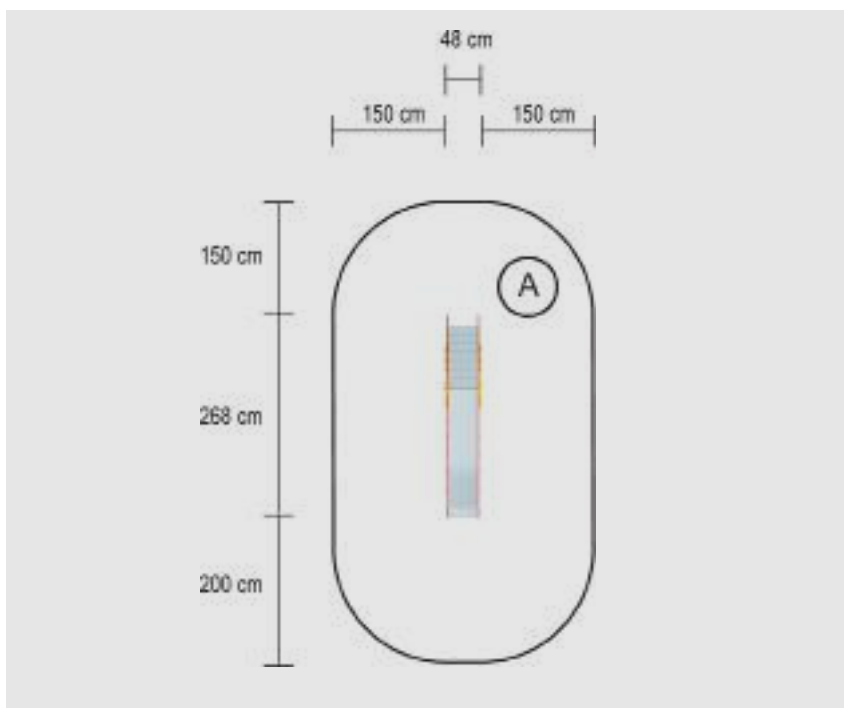

Space required: 606 x 350

Falling height: 90

Safety surface: IAW EN 1177

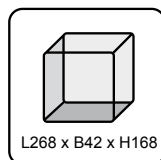

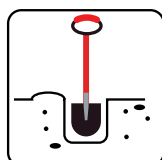

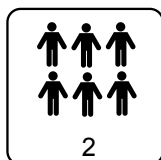

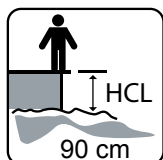

Age group: from 2 years

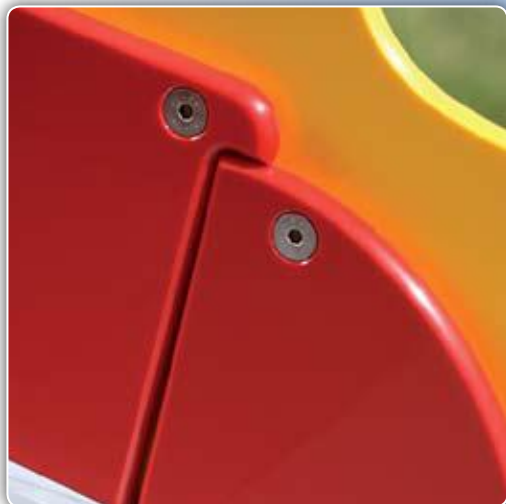

Space required

Dimensions in cm: L 256 - B 52 - H 167

Space required in cm: 606 x 350

Our plates of polyethylene don't splinter, and all joints are gap-free. Which means that neither fingers nor clothes can get caught or ripped.

All handles have got good gripping surfaces and are rounded off, which minimizes the risk of eye and teeth damage. Made of nylon, so the fingers don't freeze to them.

Additional equipment:

Safety surface EASY-ON rubber tiles with holes. Easy installation with pegs into the ground. No digging. Very cost-effective.

The gliding surface is made of Polyethylene which doesn't get hot in the sun.

Safe high quality playground...
